# Bishops in dialogue

Learning Board

By Thomas J. Shannon  
Sept. 10, 2012

As the Catholic Church in the United States enters its 200th anniversary, it is worth reflecting on the role of the bishops in the life of the Church. The bishops have always been a central part of the Church's leadership, and their role has evolved over time. In the early days of the Church, the bishops were the primary leaders, and they were responsible for the spiritual and temporal well-being of the faithful. As the Church grew, the role of the bishops became more complex, and they had to deal with a wide range of issues, from doctrinal disputes to social and political concerns. Today, the bishops continue to play a vital role in the Church, and their leadership is essential for the Church's future.

The President has always been a central part of the nation's leadership, and his role has evolved over time. In the early days of the nation, the President was the primary leader, and he was responsible for the spiritual and temporal well-being of the people. As the nation grew, the role of the President became more complex, and he had to deal with a wide range of issues, from domestic concerns to international relations. Today, the President continues to play a vital role in the nation, and his leadership is essential for the nation's future.

**CHINA 9-BALL TOURNAMENT**  
The 2012 China 9-ball tournament, one of the most prestigious events in the sport, concluded in Shanghai on Sunday. The event, which ran from September 15 to 23, featured a field of 128 players from 15 different countries. The winner, **Orcollo**, defeated **Wang** in the final match with a score of 5-3. The prize pot for the tournament was a record-breaking **P1.65M**. Orcollo's victory marks his second title in the China 9-ball series, having won the 2010 edition as well. The tournament was held at the Shanghai Sports Center and attracted a large crowd of spectators. Orcollo's performance throughout the tournament was exceptional, as he won 15 of his 17 matches. He was particularly strong in the later stages of the tournament, where he defeated several top-ranked players. His final match against Wang was a closely contested affair, but Orcollo's superior ball control and strategic play ultimately proved the difference. The tournament was a success for all involved, and it is expected that the 2013 edition will be even more exciting.

### BSP: Stronger peso poses no threat to BPOs

PI will continue to attract foreign outsourcing firms

**By Richard Gomez**

MANILA, Philippines — The Philippine economy is expected to continue its growth in 2013, driven by a strong services sector and a recovering manufacturing sector. The Philippine Institute for Development Studies (PIDS) released a report stating that the Philippine economy is expected to grow by 7.2 percent in 2013, up from 6.8 percent in 2012. The report also states that the Philippine economy is expected to remain resilient to external shocks, such as the strengthening of the Philippine peso.

### SNAP expected to start Mugu plant expansion

**By John E. Lopez**

MANILA, Philippines — The South Philippine Nuclear Power Corporation (SNAP) is expected to start the expansion of its Mugu plant in the near future. The plant, which is located in the Mugu area of the Philippines, is currently under construction. The expansion of the plant is expected to increase the plant's capacity and improve its efficiency. The Philippine government is committed to developing the nuclear power industry as a source of clean energy. The expansion of the Mugu plant is a key part of the government's strategy to diversify the country's energy sources and reduce its dependence on fossil fuels.

## CLASSIFIED

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and faint, illegible markings, possibly from the reverse side or due to age. The left edge of the page is bound, showing the stitching and the inner cover material. The overall tone is warm and vintage.

### SCB ups production of ethanol facility

SCB has increased the production capacity of its ethanol facility in Bangkok to 1.5 million litres per day, up from 1 million litres per day, to meet the growing demand for ethanol in the country. The company has also invested in new technology to improve the efficiency of its production process. The ethanol is used for various purposes, including as a fuel additive and in the production of chemicals. SCB is committed to providing high-quality ethanol to its customers and to supporting the local economy.

### PH has enough coconut output to meet increased requirement

By Andrew S. Brown

PH has enough coconut output to meet increased requirement. The Philippines has a large coconut industry, and the country's output is expected to meet the increased requirement for coconuts in the coming years. The coconut industry is a major source of income for many Filipinos, and the government is working to support the industry and ensure that it remains a viable source of income for the people.

# Grow your business with the right financing company

By Joel V. Vago

**Small business and personal loans**

Small business and personal loans are available from a variety of sources. The most common sources are banks, credit unions, and online lenders. Each source has its own advantages and disadvantages. Banks and credit unions typically offer lower interest rates and more flexible terms, but they may require more paperwork and have longer approval times. Online lenders, on the other hand, offer faster approval times and more flexible terms, but they may have higher interest rates and less flexible terms.

When choosing a financing company, it is important to consider the company's reputation, the interest rate, the terms of the loan, and the ease of the application process. It is also important to compare the offers from different companies to ensure you are getting the best deal.

Small business and personal loans can be used for a variety of purposes, including starting a new business, expanding an existing business, or financing a personal purchase. The amount of the loan and the terms of the loan will depend on the purpose of the loan and the borrower's credit history.

# Retire rich and young

Retiring rich and young is a goal that many people have. There are several ways to achieve this goal, including investing in stocks, real estate, and private equity. Each method has its own risks and rewards. Investing in stocks can be a high-risk, high-reward strategy, while investing in real estate can be a more conservative strategy. Private equity investing is a more complex strategy that involves investing in the private companies of others.

It is important to consult with a financial advisor when developing a retirement plan. A financial advisor can help you understand the risks and rewards of different investment strategies and help you create a plan that is tailored to your needs and goals.

# Claudio Bravo's Philippine portraits come back to life at Met

By Christine Kim

Now, as the museum's new exhibition "Claudio Bravo: Philippine Portraits" opens, it is a rare opportunity to see the artist's work in the Philippines.

Bravo's work is a blend of traditional and modern, and his portraits of the Philippines are a testament to his deep understanding of the country's culture and history. The exhibition is a must-see for anyone interested in art and the Philippines.

### Be Moved by the Power

Figure 1 is a schematic diagram of the experimental setup. It shows a participant sitting at a table, viewing a screen. The screen displays a target (a small circle) and a starting point (a larger circle). The participant's hand is positioned at the starting point. The diagram illustrates the spatial relationship between the hand, the target, and the screen.
